

Designer Pipeline

The image shows a CRM interface for "Interiors by DeX". The left sidebar contains a menu with "Pipeline" and "Sales" highlighted. The main area displays a Kanban board with columns for lead stages: Effective Lead (8), MQL (0), DQL (0), Proposal Ready (0), and Proposal Presented (0). The total value for all leads is ₹34.50L. A lead card for "annie" is visible in the "Effective Lead" column, showing a value of ₹10.0L and a 5-star rating. Annotations with arrows point to specific elements: "Rename to search" points to the filter bar; "Sales Pipeline Design pipeline (Coming soon) Leads Projects (Coming soon)" points to the sidebar menu; "Rename it to 'Sales Pipeline' Add Separate 'Design Pipeline' tab below that" points to the sidebar menu; and "Add Projects below the lead" points to the lead card.

Stage Roadmap

Allocated 4 Aug 26

Right now lead stage has lead status (Onhold and inactive) in it , pls do remove that from lead stage and move to lead status.

Add - lead status separately as marked above - add it next to the lead stage.

When the project is inactivated or put on onhold - should also reflect the stage on which project was inactivated or onhold.

When the lead is inactivated and then later when activated - it should ask for reason - auto tab to be opened with reason typable box - and notification via mail and crm notification is sent to internal team and client

Internal team mail trigger for reactivation reason is mandatory but client is optional - if client option is ticked then client with receive a mail regarding the same

Reason for reactivation *

☐ EXTERNAL MAIL/MSG

Gate to stage movement is wrong for each stage. - Gate to stage movement is given below

But as per system gate at the moment even after uploading the generated quotation - couldn't move stage

Gate for each stages

- 1) To move the project from EL to MQL (gate to MQL) - Project details - * as per the given mandatory now.
- 2) To move from MQL to DQL (gate to dql) - Floor plan -DQL meeting schedule and completed - Lifestyle capture sheet + tentative project value
- 3) DQL to PR - gate to PR - Pitch Ready file to be uploaded + project value
- 4) PR to PP - Gate to PP - PP meeting scheduled and completed - PP presentation attached. + project value +Expected OB date (expected OB date should be able filter in lead and pipeline)

In some cases lead can directly move from MQL to PP and DQL to PP in that case all the gate to req for each stages is mandatory except for the DQL meeting and PR file - rest all is mandatory

- 5) PP to PD - gate to pd - Meeting or call scheduled and completed + PD quotation

Somecases project can move from PP to OB in that case both PD quote and Meeting is not mandatory

- 6) PD to OB - gate to ob - Generated OB quote + Final Pitch presentation file or PD file Payment value + project value pre gst post discount. Excluding furniture +furniture value + Auto add design manager by system
- 7) OB to OBM - gate to obm - OBM meeting schedule
- 8) OBM to DIP - OBM meeting completed + OBM checklist completed

OBM Check list.

1. Project timeline fixed (Site documentation - date , Initial site discussion - date , Layout finalisation - date - Design discussion - date , Pre sign off - - date , Masking - date , sign off - date - Rest of the execution stages can be auto timeline calculation , these dates has to be reflected in the project timeline and OBM welcome mail trigger)
2. Welcome Documents explained to client - (1, Dex material and specification, 2. Credit system 3. Deep cleaning 4. Payment process 5. Warranty claim 6. Project continuity and team transition. 7. Cancellation
3. NPS trigger - to client - form link or software link - to be triggered and has be reflected in the system.

Share OBM mail

Once share OBM mail is clicked - Mail will open - editable format and once click sent mail will be shared to cx .- once mail sent Stage will be move to OBM stage. And another tab opens -

☐ Welcome mail approved by client

Attach screenshot

Once done move to DIP

Change Stage

Inactive

Reason *

e.g. Budget mismatch, not interested

Feedback email + SMS sent automatically to client and internal team.

Cancel Update Stage

Reason has to be drop down and then add notes - notes should have a tick box (client or internal) - if chosen cx then cx will receive the notes content in mail .

Inactivation reason drop down

Future Prospect Follow Up

Has not bought property yet

Client won't move out during execution

UPVC / SS / Aluminium Interiors

Should be able to manually type reason

When each stage is updated - Auto pop up intent rating + Project value (pre gst post discount) - once the value is entered client budget in the project details should also be updated and the activity to be reflected in the activity tab.

Where ever the mail or notification to be sent to the client have a mandatory tick box external notification , designer can choose if they would want to share the notification.

Any auto mail trigger point in the system should ask internal or external mail once the checkbox is clicked the mail should go accordingly - But internal mail trigger is mandatory only external is optional.

Pls note that - any mail before sharing it with cx mail should open and designer will read and edit before sharing it to cx - content already pre filled cannot be edited eg meeting date and time attachments etc.

All Mail template to be editable form the management crm

Any follow up task and meeting reminder alert Start of the week - Every Tuesday - start of the day + 1 hr before the meeting or task

Stages that should send mail without attachment is proposal ready mail.

Where ever the date and time needs to be logged - no manual entry calendar and clock stamp option should be given

All the attachment should have multiple attachment right now attachment is limited to one except if we go in to file folder and attach but multiple attachment should also be available inside the other tabs as well.

Floor plan attached in DQL stage is not automatically reflected in the file folder

Only after project is moved to DIP stage only after that sale incentive is calculated and reflected in incentive calculation dashboard and sale done reflected in dashboard

Stages that can be skipped is DQL , PR , PD - rest of all the stages cannot be skipped but the require document and mandatory things has to be updated when the stage is moving forward - eg when the stage is updated from MQL to PP directly then (All the mandatory req in dql +pr+pp must be updated) - eg - floor plan + lifestyle capture +PP file has to be updated in the system to move the stage.

When project is onhold - as per the reopen date system should automatically reactivate the lead with internal and external notification

When leads is created by designer from their portal - if required mandatory field to move to mql are not filled then stage can be in MQL - right now even without filling project details which is mandatory field for MQL stage is automatically reflected in the MQL stage

Floor plan attached in MQL or EL stage is not reflected in the files it should auto reflect in the files
