

DEX CRM – Design Team Lead (DTL) Incentive Engine (Functional Requirement Specification)

1. Incentive Cycle

Parameter	Value
Incentive Cycle	15th – 15th
Calculation Frequency	Monthly
Employee Role	Design Team Lead

All targets are dynamic and configurable. Any revision shall apply only to future incentive cycles.

2. Master Configuration (Admin Editable)

The following values shall be editable by Management.

Parameter	Editable
Self Booking Target	
Self PO Target	
Team PO Target	
Self Performance Weight	
Team Performance Weight	
Booking Credit Allocation	

PO Credit Allocation 

Team PO Credit Allocation 

Base Incentive 

Incentive Slabs 

CX Release Matrix 

Booster Rules 

Milestone Rewards 

Validation Rules

Booking Credit Allocation

+

PO Credit Allocation

=

100 Credits

Self Weight

+

Team Weight

=

100%

3. Revenue Calculation Rule (Mandatory)

Eligible Revenue

All incentive calculations shall use only:

Post-Discount Project Value (Pre-GST)

The system shall never calculate incentives using:

- Gross Project Value
 - GST-inclusive value
 - Pre-discount value
-

Onboarding Fields

Field	Used
Gross Project Value (Pre-GST)	Display Only
Discount Amount	Display Only
Eligible Revenue (Post-Discount Pre-GST)	☒ Incentive Engine
GST	Display Only
Invoice Value	Display Only

Formula

Eligible Revenue

=

Gross Project Value (Pre-GST)

– Discount

This value becomes the single source for

- Self Booking Credits
 - Self PO Credits
 - Team PO Credits
 - Leaderboards
 - Incentive Calculation
-

4. Dynamic Credit Calculation

The CRM must not hardcode the credit rate.

Self Booking Credit Rate

Booking Credit Allocation

÷

Booking Target

Self PO Credit Rate

PO Credit Allocation

÷

PO Target

Team PO Credit Rate

Team PO Credit Allocation

÷

Team PO Target

Whenever targets change, credit rates should automatically recalculate.

5. Self Performance Calculation (60%)

Self Booking Credits

Eligible Booking Revenue

×

Booking Credit Rate

•

Self PO Credits

Eligible PO Revenue

×

PO Credit Rate

=

Self Credits

(Maximum 100)

6. Team Performance Calculation (40%)

Only Team PO contributes.

Team Eligible PO

×

Team PO Credit Rate

=

Team Credits

(Maximum 100)

7. Final Credit Calculation

Final Credits

=

(Self Credits × Self Weight)

+

(Team Credits × Team Weight)

Default Weightage

Component	Weight
Self Performance	60%
Team Performance	40%

Weightages must be configurable by Admin.

8. Incentive Eligibility

Final Credits	Core Incentive	Booster	Milestone
Below 65	✗	✗	✗
65–74	✗	✓	✓
75 and Above	✓	✓	✓

Business Rules

- Below 65 → Stop calculation.
 - 65–74 → No core incentive. Booster Credits and Milestones continue.
 - ≥75 → Continue to Core Incentive.
-

9. Core Incentive Slab

Final Credits	Incentive Released
---------------	--------------------

Below 75	0%
75–85	50%
85–95	75%
96–99	80%
100	100%

10. CX Release Gate

Client Experience determines incentive release.

CX does not determine earning.

It determines release.

Applicable only if

Final Credits

≥75

Client Feedback Required

- Onboarding / Pre-Sales Stage (Self Performance)
- Project Sign-Off Stage (Execution + Team Performance)

Release Matrix

CX	Released
10	100%
9.5	75%

9 50%

8 25%

Below 8 0%

CX shall affect only Core Incentive.

CX shall never affect

- Booster Credits
- Milestone Rewards
- Furniture Incentive

11. Performance Boosters

Applicable only after **65 Final Credits**.

Booster Credits never change the payout slab.

They only contribute toward milestone rewards.

A. Self Boosters

Revenue

- Booking > Target → +2 Credits per ₹1L
- PO > Target → +2 Credits per ₹1L

Pitch Performance

Monthly Pitch	Credits
---------------	---------

Below 20	0
----------	---

21–30	+5
-------	----

31–40	+8
-------	----

40+	+10
-----	-----

Speed

Rule	Credits
Lead → Pitch Same Day	+3
Lead → Booking Same Day	+5
Booking → PO ≤15 Days	+5
Booking → PO ≤20 Days	+3

Operational Discipline

Rule	Credits
Full Attendance & Compliance	+3
Zero Escalation Cycle	+5

B. Team / DTL Boosters

Revenue

- Team PO > Target → +2 Credits per ₹1L

Team Performance

Rule	Credits
100% Team Target	+10
≥80% Team Target	+5
≥75% Team Eligible for Incentive	+10

PO TAT

Rule	Credits
≤15 Days	+5
≤20 Days	+3

Governance

Rule	Credits
Zero Design Errors	+10
Zero DTL Escalations	+10

Collection

Rule	Credits
60% Collection on Time	+5
Collection ≥ 7 Days Early	+3

Conversion

Rule	Credits
Booking $\rightarrow$ PO $\geq 80\%$	+8

12. Final Credits

Final Credits

=

Weighted Credits

+

Booster Credits

13. Milestone Rewards

Applicable after

Final Credits ≥ 65

Final Credits	Reward
---------------	--------

125	₹2,500
-----	--------

150	₹5,000
-----	--------

175	₹7,500
-----	--------

200	₹10,000
-----	---------

14. Furniture Incentive

Furniture Incentive

1%

×

Post-Discount Value

(Excluding GST)

Applicable only when

- Not included in original onboarding quotation **or** sold as an upsell later.
 - Approved and signed off.
 - Based on final invoiced and realized value.
-

15. Governance Rules

The incentive engine shall automatically place the incentive on **Hold** if:

- Missing Client Feedback
- Process Non-compliance
- Manipulated Submission
- Rating Inconsistency
- Invalid PO
- Project Cancellation

- Governance Failure

If cancelled after payout calculation

Reverse Credits

↓

Recalculate Incentive

↓

Store Audit History

16. Incentive Audit Log (Mandatory)

Every incentive calculation must create an immutable audit record.

Employee Details

- Incentive Cycle
- Employee Name
- Employee ID
- Role
- Cohort
- Reporting Manager

Revenue Details

- Gross Project Value (Pre-GST)
- Discount
- Eligible Revenue (Post-Discount Pre-GST)

Performance Details

- Self Booking Achievement
- Self PO Achievement
- Team PO Achievement
- Self Credits
- Team Credits
- Weighted Final Credits

- Booster Credits
- Final Credits

Incentive Details

- Base Incentive
- Incentive Slab
- Earned Incentive
- CX Rating
- Released Incentive
- Milestone Reward
- Furniture Incentive
- Final Payable Incentive

Approval Details

- Calculated On
- Approved By
- Finance Released On
- Payment Status

Adjustment Log

Every recalculation must store:

- Date
- Reason (Cancellation / Invalid PO / CX Update / Admin Override)
- Previous Value
- New Value
- User
- Timestamp

No calculation should overwrite a previous record. Each recalculation must generate a new version.
