

DEX CRM – Designer Incentive Calculation Engine (Functional Logic)

1. Incentive Cycle

Cycle Type : Monthly

Cycle Period : 15th – 15th

Calculation Date: End of Incentive Cycle

2. Master Configuration (Editable)

These values should be editable only by Management.

Parameter	Example	Editable
Booking Target	₹40,00,00 0	✓
PO Target	₹30,00,00 0	✓
Booking Credit Allocation	42	✓
PO Credit Allocation	58	✓
Base Incentive	₹40,000	✓
CX Release Matrix	Yes	✓
Incentive Slabs	Yes	✓
Booster Rules	Yes	✓

Validation Rule

Booking Credits + PO Credits = 100

Else

Do Not Save

3. Dynamic Credit Calculation

System should never hardcode 1.05 or 1.93.

Instead calculate

Booking Credit Rate

=

Booking Credit Allocation

/

Booking Target (Lakhs)

Example

42

/

40

=

1.05 Credit/Lakh

Similarly

PO Credit Rate

=

PO Credit Allocation

/

PO Target (Lakhs)

Example

58

/

30

=

1.93 Credit/Lakh

This automatically changes whenever target changes.

4. Core Credit Calculation

Input

Booking Value

PO Value

System calculates

Booking Credits Earned

=

Booking Value (Lakhs)

×

Booking Credit Rate

PO Credits Earned

=

PO Value (Lakhs)

×

PO Credit Rate

Core Credits

=

Booking Credits

+

PO Credits

Maximum

100 Credits

5. Eligibility Engine

Rule 1

Core Credits <65

↓

No Incentive

No Booster

No Milestone

STOP

Rule 2

65–74

No Core Incentive

Booster Eligible

Milestone Eligible

Continue

Rule 3

75+

Eligible

Proceed to CX Validation

6. CX Gate

CX is NOT a score.

CX decides

How much incentive gets released.

Only applicable

Core Credits ≥ 75

Release Matrix

CX	Incentive Released
10	100%
9.5	75%
9	50%
8	25%
Below 8	0%

If

CX Missing

↓

Hold Incentive

NOT

Reject

7. Incentive Slab

Based on

Core Credits

Core Credits	Earned Incentive
Below 75	0%
75–85	50%
85–95	75%
96–99	80%

100 100%

Example

Base Incentive

₹40,000

Core Credits

90

↓

Eligible Slab

75%

↓

Earned Incentive

₹30,000

8. Released Incentive

Released Incentive

=

Earned Incentive

×

CX Release %

Example

Earned Incentive

₹30,000

CX

9.5

↓

Release

75%

↓

Released Incentive

₹22,500

9. Booster Credits

These NEVER affect

- Core Credits
- Incentive Slab
- Released Incentive

They only affect

Milestone Rewards

Booster Calculation

Revenue

Booking > Target

↓

+2 Credits/Lakh

PO > Target

↓

+2 Credits/Lakh

Pitch

Monthly Pitches	Credits
-----------------	---------

<20	0
21–30	+5
31–40	+8
40+	+10

Speed

Metric	Credits
--------	---------

Lead → Pitch Same Day	+3
Lead → Booking Same Day	+5
Booking → PO ≤15 Days	+5
Booking → PO ≤20 Days	+3

Discipline

Condition	Credits
-----------	---------

Full Attendance	+3
Zero Escalation	+5

10. Total Credits

Total Credits

=

Core Credits

+

Booster Credits

11. Milestone Rewards

Applicable only if

Core Credits ≥ 65

Total Credits	Reward
---------------	--------

125	₹2,500
-----	--------

150	₹5,000
-----	--------

175	₹7,500
-----	--------

200	₹10,000
-----	---------

12. Additional Incentives

Furniture

Furniture Incentive

=

1%

×

Final Realised Value

Portfolio

Approved Project

↓

₹2,000

13. Credit Reversal

If

Project Cancelled

↓

Reverse

Booking Credits

PO Credits

Booster Credits

↓

Recalculate Entire Incentive

If

Invalid PO

↓

Reverse Credits

↓

Recalculate

14. Governance Rules

Do NOT Process Incentive

If

- Client Feedback Missing
- Data Not Verified
- Process Not Followed

System should show

Status

=

Pending Validation

Instead of calculating payout.

15. Final Incentive Formula

Booking Target

|

PO Target
