Leads

Remove EL stage

Add - PD (Proposal discussion) after PP

Add - OBM (onboarding meeting) after OB

Replace HO to DIP - once the lead moved to DIP it should automatically reflect in Projects.

Only after project is moved to DIP stage only after that sale incentive is calculated and reflected in incentive calculation dashboard and sale done reflected in dashboard

OB Meeting schedule - Date
+time location

Notes .

Share welcome mail

1. Mail pops up with edit access
2. Click send mail
3. Once mail sent auto move to OB stage
4. In ob stage open OBM check list

Welcome mail format will be given all the above given info will be incorporated in auto mail trigger - once the welcome mail is share stage moves to OB stage - template will be given

Stage Roadmap

When project is moved from OB to OBM following tab to be opened once completed stage to be moved to DIP

1. Project timeline fixed (Site documentation - date , Initial site discussion - date , Layout finalisation - date - Design discussion - date , Pre sign off - - date , Masking - date , sign off - date - Rest of the execution stages can be auto timeline calculation , these dates has to be reflected in the project timeline and OBM welcome mail trigger)
2. Welcome Documents explained to client - (1, Dex material and specification, 2. Credit system 3. Deep cleaning 4. Payment process 5. Warranty claim 6. Project continuity and team transition. 7. Cancellation
3. NPS trigger - to client - form link or software link - to be triggered and has be reflected in the system.

Share OBM mail

Once share OBM mail is clicked - Mail will open - editable format and once click sent mail will be shared to cx .- once mail sent Stage will be move to OBM stage. And another tab opens -

☐ Welcome mail approved by client

Attach screenshot

Once done move to DIP

1. Any files that are attached cant be replaced
2. If Needed new files can be attached
3. Any files that are attached in that particular stage has to be reflected in the file tab under that stage. - Rign now already attached files are not reflected.

Sales funnel

- 1. Remove effective lead
- 2. Add - after pp PD
- 3. Add after PD - OB and OBM

Add SLA breach or stage stagnant to the sales funnel in each stage (MQL to DQL 7 to 15 if its more than 15 days should be reflected in red, DQL to PR is 2 days , PR to pp or DQL to PP - 2days , PD -to ob 7 to 15 days

Design in progress

- 1. Site documentation
- 2. Site Discussion
- 3. Layout finalisation
- 4. Design discussion
- 5. Presignoff
- 6. Masking
- 7. Sign off
- 8. EIP

Incorporate the SLA breach here - SLA can be referred to timeline and once the design process is kickstarted then the design stage has to be completed in 45 day. Over all SLA breach and each stage sla breach can be incorporated.

Add expected vs Acheived

Sales funnel
