GATE TO EACH STAGE are not right at the moment - stage skip formula is missing

Gate for each stages

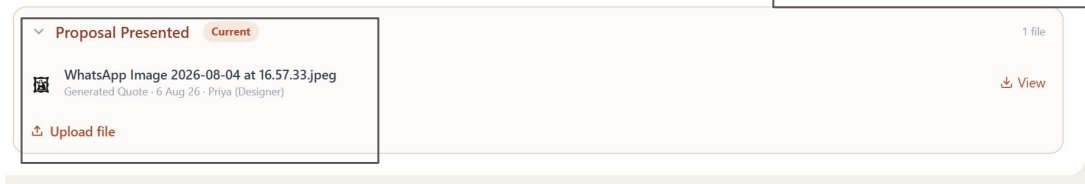

- 1) To move the project from EL to MQL (gate to MQL) - Project details - * as per the given mandatory now.
- 2) To move from MQL to DQL (gate to dql) - Floor plan -DQL meeting schedule and completed - Lifestyle capture sheet + tentative project value
- 3) DQL to PR - gate to PR - Pitch Ready file to be uploaded + **project value - not been asked at the moment**
- 4) PR to PP - Gate to PP - PP meeting scheduled and completed - PP presentation attached. + project value +Expected OB date (expected OB date should be able filter in lead and pipeline)

In some cases lead can directly move from MQL to PP and DQL to PP in that case all the gate to req for each stages is mandatory except for the DQL meeting and PR file - rest all is mandatory

- 5) PP to PD - gate to pd - Meeting or call scheduled and completed + PD quotation

Sometimes project can move from PP to OB in that case both PD quote and Meeting is not mandatory

- 6) PD to OB - gate to ob - Generated OB quote + Final Pitch presentation file + Payment value + project value pre gst post discount. Excluding furniture +furniture value + Auto add design manager by system (shall give you those detail during design pipeline
- 7) OB to OBM - gate to obm - OBM meeting schedule
- 8) OBM to DIP - OBM meeting completed + OBM checklist completed + OB mail cx approval screenshot.

Stage Roadmap

When project is moved from OB to OBM following tab to be opened once completed stage to be moved to DIP

OBM Check list.

1. Project timeline fixed (Site documentation - date , Initial site discussion - date , Layout finalisation - date - Design discussion - date , Pre sign off - - date , Masking - date , sign off - date - Rest of the execution stages can be auto timeline calculation , these dates has to be reflected in the project timeline and OBM welcome mail trigger)
2. Welcome Documents explained to client - (1, Dex material and specification, 2. Credit system 3. Deep cleaning 4. Payment process 5. Warranty claim 6. Project continuity and team transition. 7. Cancellation
3. NPS trigger - to client - form link or software link - to be triggered and has be reflected in the system.

Share OBM mail

Once share OBM mail is clicked - Mail will open - editable format and once click sent mail will be shared to cx .- once mail sent Stage will be move to OBM stage. And another tab opens -

☐ Welcome mail approved by client

Attach screenshot

Once done move to DIP

When each stage is updated - Auto pop up intent rating + Project value (pre gst post discount) - once the value is entered client budget in the project details should also be updated and the activity to be reflected in the activity tab.

Where ever the mail or notification to be sent to the client have a mandatory tick box **external notification** , designer can choose if they would want to share the notification.

Any auto mail trigger point in the system should ask internal or external mail once the checkbox is clicked the mail should go accordingly - But internal mail trigger is mandatory only external is optional.

Pls note that - any mail before sharing it with cx mail should open and designer will read and edit before sharing it to cx - content already pre filled cannot be edited eg meeting date and time attachments etc.

All Mail template to be editable form the management crm

Any follow up task and meeting reminder alert Start of the week - Every Tuesday - start of the day + 1 hr before the meeting or task

Stages that should send mail without attachment is proposal ready mail.

Where ever the date and time needs to be logged - no manual entry calendar and clock stamp option should be given

All the attachment should have multiple attachment right now attachment is limited to one except if we go in to file folder and attach but multiple attachment should also be available inside the other tabs as well.

Floor plan attached in DQL stage is not automatically reflected in the file folder

Only after project is moved to DIP stage only after that sale incentive is calculated and reflected in incentive calculation dashboard and sale done reflected in dashboard

Stages that can be skipped is DQL , PR , PD - rest of all the stages cannot be skipped but the require document and mandatory things has to be updated when the stage is moving forward - eg when the stage is updated from MQL to PP directly then (All the mandatory req in dql +pr+pp must be updated) - eg - floor plan + lifestyle capture +PP file has to be updated in the system to move the stage.

When leads is created by designer from their portal - if required mandatory field to move to mql are not filled then stage can be in MQL - right now even without filling project details which is mandatory field for MQL stage is automatically reflected in the MQL stage

Projects can't be kept on hold

Expected OB date - remainder msg and mail

PR stage can be skipped but required mandatory field in PR should be done in DQL - Files attachment under dql , ob date ,pp meeting schedule completed

Intent rating is auto changing only the first time but it should be updated when each stage movement as per the given criteria

Floor plan attached in MQL or EL stage is not reflected in the files it should auto reflect in the files

Files not PR - PP files

When one skips the PR stage all the mandatory stage in PR can be filled in PP stage - except for proposal ready pitch presentation

Right now PR stage is mandatory and not able to add the pp files directly without updating the PR file tab - PP file tab is not opening up -stage skip cant be done in PR - but one should be able to skip PR stage

Conversion / Pipeline Calculation:

Add **Total Leads Received** as the base count.

Show the **current number of unique leads in each stage** separately.

Stage % = Current Leads in Stage ÷ Total Leads Received × 100.

Example: Total Leads Received = 10

MQL = 2 → 100%

DQL = 5 → 50%

Proposal = 2 → 20%

Booking = 1 → 10%

Important: A lead should be counted only in its **current stage**, so the stage counts together should equal the total active leads.
